

CASE OVERVIEW

How STATXO Delivered 5–6x Faster Invoice Processing and 95%+ Data Accuracy for a Global Construction & Design Firm

A global construction & design leader in 26 countries faced finance department inefficiencies in invoice processing. Manual data entry for 6,500+ monthly invoices resulted in high costs, inefficiency, and ERP data inaccuracies.

Industry: Construction & Design

Monthly Invoices: 6,500+

Footprint: 26 Countries

Function: Finance & AP

OBJECTIVE

To streamline and optimize the financial processes within the company, particularly in Invoice Processing (AP), Purchase Orders (POs), and Subcontracts.

SCOPE

6,500+ monthly invoices across Invoice, PO and Subcontract processing, with validation rules, AP audit checks, and ERP integration.

ENGAGEMENT SNAPSHOT

Manual Invoice Processing Was Costing Finance Its Speed and Accuracy

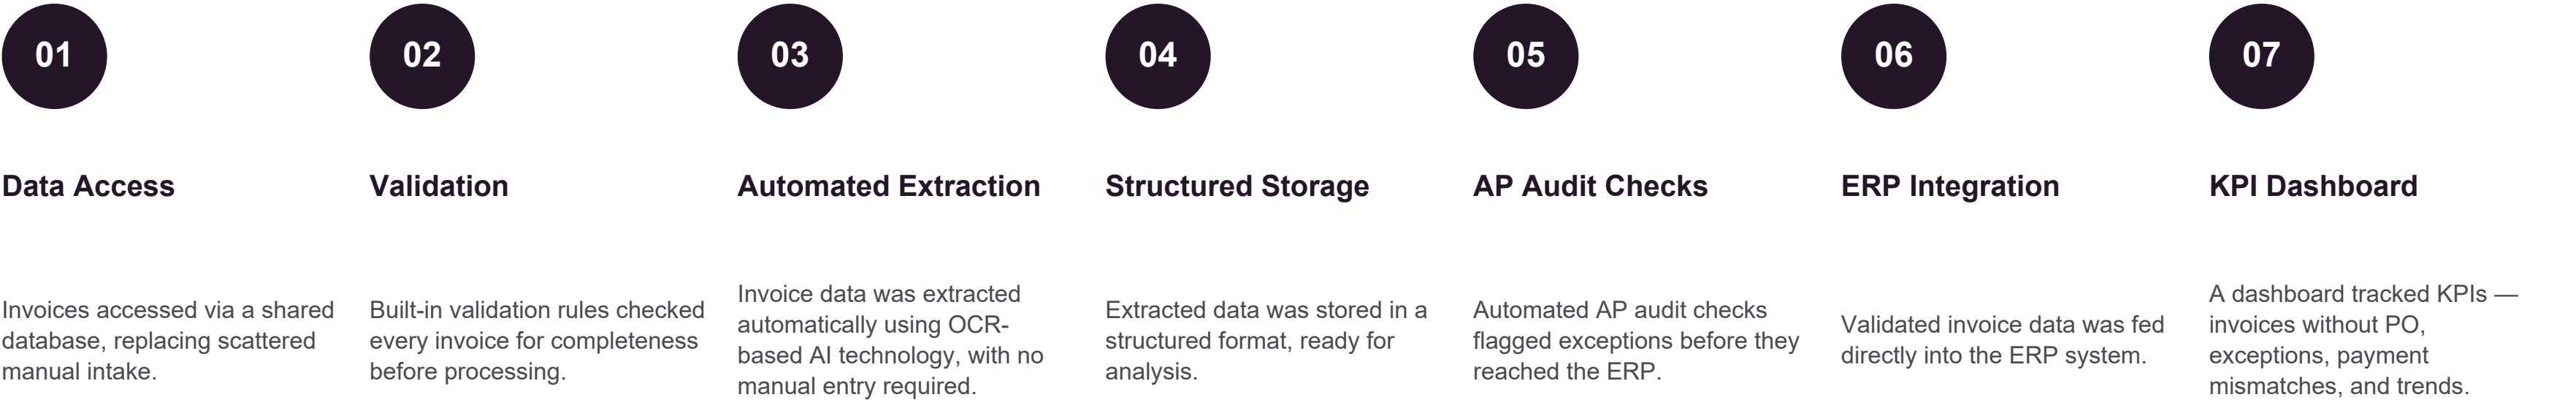

Manual data entry for 6,500+ monthly invoices resulted in high costs, inefficiency, and ERP data inaccuracies — across a finance function spanning 26 countries.

One Automated Invoice Workflow, End to End

STATXO automated invoice processing with AI-powered intelligence — from intake through to the ERP and KPI dashboard.

The Automation Behind 5–6x Faster Processing

STATXO automated invoice processing across 6,500+ monthly invoices with AI-powered validation, audit checks, and full ERP integration — eliminating manual data entry and giving finance a single automated workflow from intake to dashboard.

STATXO stayed accountable from data access through to the KPI dashboard finance teams use today. That end-to-end ownership is what turned manual invoice processing into an automated system finance could rely on.

5–6x

Faster Invoice Processing

The Numbers Finance, AP, and Operations All Agree On

5–6x

Faster Invoice Processing

95%+

Data Accuracy (from ~85%)

180–200 hrs

Monthly Hours Saved

30–40%

Finance Process Capacity Optimized

BEFORE VS. AFTER

Processing speed	Manual, slow	→ 5–6x Faster
Data accuracy	~85%	→ 95%+
Monthly hours	High (manual)	→ 180–200 hrs saved
Process capacity	Fully occupied	→ 30–40% Optimized

Every hour saved above compounds: the dashboard keeps preventing exceptions and mismatches well beyond go-live.

An AI-Powered Dashboard Replaced Manual Invoice Entry

STATXO's automation and audit capability gave finance teams one place to see, validate, and act on invoice data.

KPI TRACKING

- Invoices without PO
- Exceptions
- Payment mismatches
- Trend analysis

PROCESS INTELLIGENCE

Invoice status: Automated tracking

Processing trend: Improving

Invoice visibility: Real-time

The Team Closest to the Problem, on What Changed

“

STATXO's solution was a game-changer. Our invoicing process is now lightning-fast, thanks to OCR technology. We've achieved exceptional data accuracy, a significant leap from before. This solution not only saved us time but also enhanced operational efficiency. Outstanding results!

— Chief Operating Officer

ENGAGEMENT SCOPE

Invoice, PO & Subcontract Processing

BUSINESS FUNCTIONS INVOLVED

Finance · Accounts Payable

INDUSTRY CONTEXT

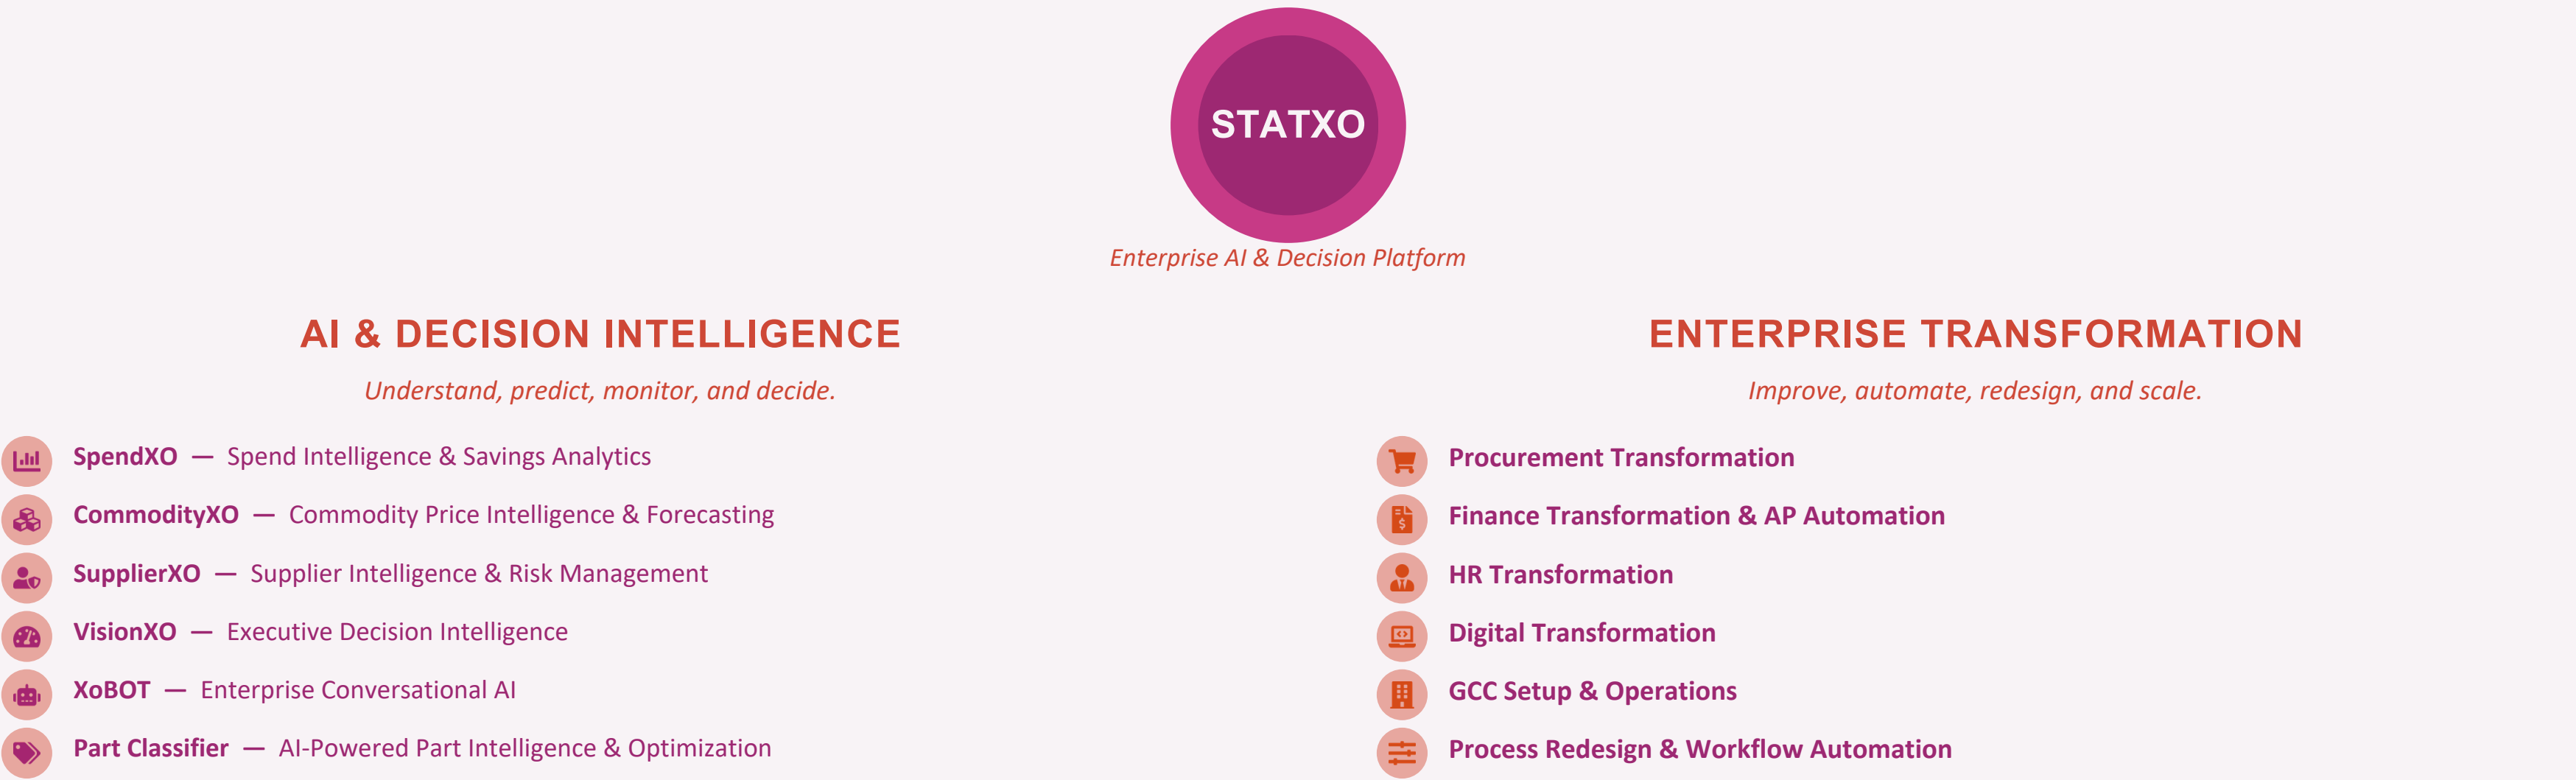

Construction & Design, 26 Countries

✓ WHY IT SUCCEEDED

AI-powered automation, structured validation, and a live KPI dashboard turned manual invoice processing into a system finance could trust.
